

To Whom It May Concern:

We hired Lookin' Back to perform at our recent event the Jeep Creep in Gladwin, Michigan. The members of the band stayed at our property and performed for four and a half hours to a wide variety of people. The quality of their performance was outstanding – the crowd was dancing up until the moment they stopped. The vocalists and musicians are top notch in this group and their professionalism is superb. We've received great feedback and requests to bring them back to the event next year.

Lookin' Back were also wonderful guests. Our property was left in great condition; breaks during the performance were spaced evenly and not overly long. I highly recommend Lookin' Back to any event that wants a classic good time had by all.
